PUT THE MAGIC OF IOT IN YOUR PROJECTS

LEGRAND

We are the global specialist in Electrical and Digital buildings infrastructures. Our comprehensive offering of solutions for residential markets makes it a benchmark worldwide.

We aim to always offer reliable products and a qualitative follow up of our projects. As world leader for wiring devices we always release new offers including connected products with value in use.

With its program named ELIOT, launched in 2015, Legrand aimed to speed up deployment of Internet of Things in electrical products. Since then Legrand has cemented itself as a pioneer in the future of smart home.

We aim to develop connected and interoperable solutions that delivers lasting benefits for users and upgrade your home into something special and truly yours.

Our office is present in Mauritius since 2009, our team offers local services and support, to ensure that your projects will meet all your expectations.

ARTEOR WITH NETATMO

Increasing digitalisation and networking are making our lives ever simpler and more convenient, as technology transforms the way we work, communicate, travel and live at home.

This is why Legrand, in developing Arteor with Netatmo, has sought to make networked digital technology as easy as possible, for designers, installers and users of living space.

The result is the radio solution of sockets and switches : Arteor with Netatmo, which has been developed in collaboration with French industry-leading smart home brand Netatmo.

- Arteor with Netatmo is the smart radio solution
- Simple adaptable, open, it allows every house to be more individual, convenient and secure
- App control for ease of use. All functions in installation can be controlled on your smartphone or tablet using the app : you stay connected with your home no matter where you are.
- Voice control to manage the installation without lifting a finger

ARTEOR™ with NETATMO

“LEAVING HOME” SCENARIO

A single press will turn off the lights and close all the shutters as you leave the home, meaning you save time and gain convenience.

ALERTS

If there's a power failure when you're not at home, the app will warn you instantly so you can take action.

ENERGY MANAGEMENT

Whether to check your real-time energy consumption or to do a more long-term, in-depth analysis, the app will help you all the way towards greater energy efficiency.

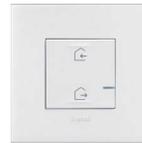

SMART PACK

1. Gateway Starter pack
2. Smart light switches
3. Smart sockets
4. Remote access control through Legrand application
5. Voice control with Vocal assistant of your choice
6. Main consumption reader

Smart Indoor Siren

When an unknown face is detected by the Netatmo Smart Camera during your absence, the Siren immediately triggers a powerful 110 dB alarm to scare away the burglar.

The Netatmo Smart Camera uses face recognition and people detection to only trigger the Smart Siren when an intrusion occurs: no false alarms caused by a family member, a pet or a harmless movement

Smart Smoke Detector

Be alerted in the event of a fire, wherever you are

The Netatmo Smart Smoke Alarm is a photoelectric (optical) smoke detector that enhances your home's safety.

When a fire starts and the alarm is set off, the Netatmo Smart Smoke Alarm sends real-time smoke alerts direct to your smartphone.
